Synopsis

Cosmological wonders

There are holes in the sky where the rain comes in,
but they're not very big, that's why rain is so thin.

... thus does little Jim muse in Spike Milligan's insight into the outlook for us as travellers on this cosmological golf-ball, this microcosmic green dot on the golf-course of the universe.

The cosmos whirls and existential Angst grips our little band of neophyte seekers-after -meaning caught in a swirling fold of the time-space continuum.

Poignant parallels between Becket's *Waiting for Godot* and tonight's starkly named *ALBERT* will no doubt not elude the more perceptive and thoughtful of our audience.

• the taut skin of the Drum of Heaven distorts ever so slightly as the little band of multiculturally dysfunctional protagonists in Richard Harris's drama grope their questing but misguided and fatally flawed way to the final cathartic catastrophe.
