

Of all the comedies that I've done over the last fifteen years one or two always stand out as being a "cut above the rest". *Love's a Luxury* is one of these. I was lucky to cast an excellent band of merry players and in the tradition of amateur dramatics we've had a great deal of fun

rehearsing over the last two months. It's not possible to act and direct beyond a certain point and I would have been lost without Bonnie Bryant (my co-director) whose fine eye for detail is excellent. Her ability to mould people from individuals into a working unit is outstanding. I hope you enjoy this offering.

Howard has been treading the boards for over fifteen years with Wyong Drama Group and has taken leads in over a dozen shows. Last seen as "the Director" in *Noises Off* last year, he adds his own particular style of comedy to all productions. A great favourite with audiences, we welcome him back as Charles Pentwick in another hilarious comedy.

The Crew
